## Update on Igor Tumasov'08

You might remember **Igor Tumasov** who graduated in 2008. In the June 2009 edition of the Falcon we heard about his possibilities and choices for university life. **Igor Tumasov'08**, who scored 40 in the IB, was offered a place at Georgetown (USA), Emory University (USA) where he received a US\$50,000 per annum Robert W. Woodruff Scholarship, and several other universities.

He has now updated us on his whereabouts and has confirmed that he decided to join Emory University. He says: "I took the full scholarship they gave me and am now in the first year of college. I'm planning to graduate in Political Science and Religion or Sociology. There's still two years to decide. I also got into an extremely competitive programme for the study of Ethics here at Emory. I applied once I got here and I'm currently the only freshman participating. I also used to play for the TBSRJ Falcons and was pretty good at basketball, but decided to focus on grades at the end of IB. I now know that I made the right decision by sticking to academics to get a scholarship. Athletics here, although not out of our school's league, do take up more time than any other activity (including class)."
